Subject: San Jacinto Final Well Installation
Date: Wednesday, May 04, 2016 11:00:06 AM

Gary – Our drilling contractor has worked out the access issue for the final well on the southeastern berm of the northern impoundment and will be mobilizing to the Site on 5/9. They are planning on installing an access platform on the 5/9 and 5/10 and will drill on 5/11 and 5/12 weather permitting. The access platform would be removed on 5/13. We will develop the well and install the final groundwater passive sampler upon well completion. Please let me know if you have any concerns.

Thanks,
David
